

## World Climate: NDC (Nationally Determined Contribution)

Region

Emissions Peak Year

Emissions Reductions Begin Year

Annual Reduction Rate

Prevention of deforestation

0% = no reduction from BAU; 100% = maximum feasible reduction

Afforestation effort (planting new forest area)

0% = no new afforestation area; 100% = maximum feasible

Your region's contribution to the global fund for mitigation and adaptation  
(\$B/year)
